

23 February 1954

SUBJECT: Dr ALBERTI

1. Subject has the designation 122/W, *according to a memo he wrote.*
2. Subject is a rather large man, 6 feet or perhaps 6'1" tall. He weighs <sup>193 lbs.</sup> 88 kilos, and wears a (German) (size) hat 62. He is ~~a~~ Albino, or nearly so, with almost <sup>(naturally)</sup> white hair and typically weak eyes. He wears strong bifocal glasses, smokes fairly heavily.
3. Subject speaks Russian, regards himself as something of an authority on Communism and the Soviet IS. He served with von KLUGE 1941 on the Eastern Front, was constantly occupied with problems of occupation of Russian territory, propaganda. He prides himself on the fact that he accurately predicted the catastrophe on the Eastern Front as early as 1941, since he is convinced that a military victory in Russia is impossible, but that the Russian people can be brought to oppose their Communist overlords.
4. If you have time to sit and listen, he will tell you the story of his life on the slightest provocation. In the course of our conversation with U/M, he described in some detail his participation in "KORSAER", "Hugo", and the famous SRIS "agent" from Turkey who passed the polygraph (BERTKAM).
5. He commented, rather gratis, that the current adviser on Eastern European matters in BONN, (?) Otto SPRINGER(?) had served as an adviser of this sort before Hitler, during the Nazi period, and now, and is, in Subject's eyes, a "100% ~~Communist (he said Bolshevik)~~".
